Closure Compatability:

The Pharmapac Pharmacy Range has been designed for packaging function, as well as flexibility. Because of this we have decided to supply our Tablet Bottle and Mission Bottle Caps seperately from the bottles, enabling the Pharmacists to stock one bottle (which take up valuable shelf space) and then decide at the point of dispensing which closure is best suited for purpose. Please use the following table to match which closures are suited to each bottle variant.

Multiple Closure Options Available for both Tablet & Mission Bottles - (All closures are purchased seperately in bags)					
Tablet Bottle Range	CRC Cap	Tablet Cap	Mission Bottle Range	CRC Cap	Mission Cap
